

National Center for State Courts

NACM Website Redesign Proposal

The National Center for State Courts will redesign the NACM website for the purpose of making the site more visually attractive, introducing animation elements and utilizing images and graphics to reinforce the text content of the site. The redesign will be done with coordination and approval by a designated representative or representatives of NACM who will provide guidance in the process. Following is a Scope of Work for the project including a general timeline and budget.

1. Complete redesign of the homepage including the development of a flash header for the page
2. Creation of new graphics and inclusion of stock photographs to update the pages
3. Maintain current navigation scheme
4. Retain current color scheme, type face, logos
5. Development of style sheets for ease of maintenance
6. Migration of the current content pages to the new site
7. Maintain navigation structure on the new site
8. Move site to a new server

This work will require 4-5 months with timely approvals of the following:

- Flash Header and Homepage
- Revised graphics and photos
- Page layout and design

Total Project Cost: \$14,000

Staff/Labor: \$14,000
